

RESOLUTION NO. 157
ESTABLISHING EXTENSION COSTS

WHEREAS, the Board of Commissioners have previously established various rates from time to time for pipeline extensions, improvements or upgrading, and

WHEREAS, said rates have not been able to fairly and accurately reflect the increased costs for making new extensions for subdivision developers, for new lines or for upgrading existing lines to meet new services, and

WHEREAS, it appears reasonable and necessary to establish a new formula consistent with the actual cost involved and to allow for reasonable planning by the District and any prospective developer; NOW, THEREFORE,

BE IT RESOLVED by the Board of Commissioners of East Wenatchee Water District, Douglas County, Washington, that all pipeline extensions, whether of new line or for replacement or upgrading of existing line to serve additional demand, shall be at the direct cost of man hours, machinery, materials and overhead labor, plus ten percent (10%) of such costs, and all of which shall be borne by the individual or company asking for such service, and all of which charges shall be paid or properly arranged for prior to initiation of work or service.

BE IT FURTHER RESOLVED that all Resolutions or rate policies inconsistent with this Resolution and prior to this date are hereby abolished and/or revoked.

ADOPTED this 24th day of January, 1977, by the Board of Commissioners of East Wenatchee Water District, Douglas County, Washington, at a regular meeting thereof.

ATTEST:

Lloyd M. Brett
Secretary

Lloyd M. Brett
President
