

RESOLUTION NO. 397

AUTHORIZING INCREASE ON INSTALLATION OF 1" WATER METERS

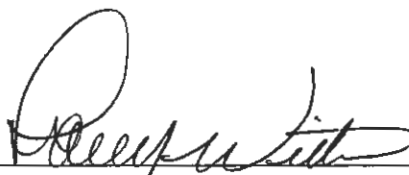

WHEREAS, the East Wenatchee Water District has previously established the costs to install a one-inch water meter, Resolution #377, to include the Plant Investment Fee and,

WHEREAS, the Board of commissioners of the District have determined that we are not re-capturing our actual costs to install a one-inch meter based on labor, equipment and materials and,

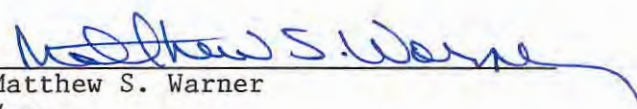

WHEREAS, the District has just re-evaluated it's Plant Investment Fee and determined that updating the plant facilities was necessary in order to serve new customers of the District and,

WHEREAS, the present cost to install a one-inch water meter is \$650.00, the Board of Commissioners deem it to be in the best interest of the District to standardize it's procedures by increasing the installation of a one-inch meter from \$650.00 to \$700.00, thereby complying with Resolution No. 396, on the installation of one-inch meters and larger.

ADOPTED, this 14th day of December 1992, by the BOARD OF COMMISSIONERS of the EAST WENATCHEE WATER DISTRICT, Douglas County, Washington at a regular meeting thereof.
