**Subject: East Wenatchee Water District – 10<sup>th</sup> St NE Watermain Extension  
Recommendation of Project Acceptance**

Dear Vince:

The agreement with Pipkin Construction for the 10<sup>th</sup> St NE Watermain Extension project was signed by the East Wenatchee Water District (District) on July 8, 2021. The contract required substantial completion by September 29, 2021 and physical completion by November 12, 2021; these dates were later revised by Change Order 1 to November 8, 2021, and November 24, 2021, respectively. Any future corrective work will be covered under warranty.

The project was placed in service and deemed to be Substantially Complete on November 8th. Completion of punch-list work occurred on November 24th, and as-builts were received on November 29th. Releases from the State still need to be received before the 5% retainage can be paid.

RH2 Engineering, Inc., recommends the District accept the project as complete. This will start the two-year warranty period.

Sincerely,

**RH2 ENGINEERING, INC.**

**Ryan Peterson, P.E.**
